For scheduling purposes, list the age group(s) the coaches' other children play in:								

Please read the following very carefully before submitting your request form:

- *You must list requested players' full names and phone numbers in the table below. (Don't forget your own child!)
- *Please ensure that you have the correct spellings and numbers for each child. Children often have similar names.
- *Eligibility is based on child's age as of 8/1/17 for Fall 2017 & Spring 2018 leagues. Three year olds MUST be 3 prior to the league starting.
- *You are not required to request the maximum number of players for your age group. Children not requested will be randomly placed in empty roster spots.
- *Make sure the parents on your team know which age group you are signing your child up for. Children must be registered in the same gender / age group as your child to be placed on your team. Teams should register in the same division for both the fall and spring.
- *Roster Requests DO NOT register a child for the program and it DOES NOT guarantee a child a spot in the program.**
- *Parents must register with O'Fallon Parks & Rec and pay the appropriate fee. Encourage parents to register early. If the child is not registered within the dates below or before the program fills, they will be placed on the waitlist. After all the children who are registered have been placed on teams, available spots will be filled with those on the waitlist in the order in which they were placed on the waitlist.
- *A \$12 late registration fee will go into effect January 25. Registration will close on February 8 or when the program is full. Registration will not be allowed for anyone after that date.
- *The Coaches' Meeting will be Saturday, March 3 Pee Wee 3, 4-5, and 6U at 8am / 9:30am all other age groups**

GOALKEEPER Glove Sizing Info

SPECIAL NOTE:

ALL Gloves supplied by CORE will have Finger Saves in them

(Finger Saves - are a plastic insert in each finger of the Gloves, that helps protect the fingers from getting bent back)

- **NOTE: Goalkeeper gloves should be worn 1" to 1.5" longer than the length of your fingers**
 - Larger gloves provide increased ball blocking ability and grip.
- **To determine your glove size:**
 - Measure the circumference of the widest part of the palm
 - Do not include the thumb
 - Round this number up to the next highest inch, and then add 1" to the measurement

- Example:
 - If your palm (excluding the thumb) measures 6 3/4", round that number up to 7"
 - Add 1" to the measurement, which gives you 8"
 - So, a 6 3/4" palm measurement would require an 8" glove.
- **Remember:**
 - Measure both hands and use the measurements of the larger hand
 - **Goalie gloves should be 1" to 1.5" Inches longer than the fingers, the reason for this is that goalies want to put as big a hand as possible in front of the ball, so longer glove fingers means it's easier to block the ball. It's for this same reason that finger protectors are put into goalie gloves, because with the gloves being longer than the fingers, fingers can more easily get broken.**
- Goalie gloves are not intended to fit like other gloves.
